ORTHOPAEDIC KNOWLEDGE UPDATE 12
Edited by Jonathan N. Grauer
Mar 2017 800pp, images
9781625525536 Paperback £325.00 / €375.00

Keep pace with the rapidly changing body of orthopaedic knowledge with OKU’s objective, balanced coverage which synthesizes the latest clinical thinking and best practice across all orthopaedic specialty areas. Backed by clinical research, informed by practical experience, and rigorously edited by specialty thought leaders, OKU 12 is the most up-to-date resource available anywhere for delivering high-quality orthopaedic patient care today.

Key features of this essential resource:

- Daily practice – enhance patient care with clinical guidelines and best practices supported by the latest evidence.
- Ongoing learning – explore vast amounts of new knowledge and clinical thinking across all orthopaedic specialty areas.
- First-time board certification – access information you need to know but won’t find in most textbooks.
- Maintenance of Certification (MOC) – prepare with confidence with objective, unbiased coverage of key topics and concepts.

All-new content from the top minds in orthopaedics includes:

- 800 pages of new content.
- Person-centered care.
- Pain management.
- Traumatic bone loss.
- Orthopaedic infection.
- Vertebral compression fractures.
- High-tech genomics, proteomics, and metabolomics.
- Completely new chapters on bone grafting, shoulder arthritis, and regulation approval of orthopaedic products.

American Academy of Orthopaedic Surgeons
2017–2018 BASIC AND CLINICAL SCIENCE COURSE (BCSC)

Keep your ophthalmic knowledge current with the American Academy of Ophthalmology’s 2017–2018 Basic and Clinical Science Course (BCSC). The cornerstone of clinical ophthalmic knowledge, BCSC is the most extensive compilation of ophthalmic scientific research and clinical experience. This unparalleled, all-encompassing 13-volume set enhances clinical knowledge with numerous images, videos and self-assessment questions.

Buy the Complete Print Set or Residency Print Set and save over 20%

**BCSC COMPLETE PRINT SET**
Jun 2017 4,800pp, images, videos
9781615258499 Paperback + Online video access £1,595.00 / €1,800.00

Comprises the thirteen individual sections plus Master Index. The individual sections are also each available for purchase separately.

**BCSC RESIDENCY PRINT SET**
Jun 2017 6,056pp, images, videos
9781615258482 Paperbacks, free ebook + Online video access £1,750.00 / €2,000.00

Comprises BCSC Complete Print Set and two additional books:
- Basic Principles of Ophthalmic Surgery
  Third Edition
- Basic Techniques of Ophthalmic Surgery
  Second Edition

The American Academy of Ophthalmology and the European Board of Ophthalmology (EBO) have partnered to make BCSC the standard text for all European ophthalmology training programmes. The EBO recommends BCSC as the primary educational resource for European trainees and ophthalmologists studying for the annual EBO Diploma Exam.

As each BCSC section undergoes major revision, an EBO peer review committee will advise the Academy on content needed to make the book relevant for European readership.

AFIP ATLAS OF TUMOR PATHOLOGY, SERIES 4

The AFIP Atlas of Tumor Pathology has a long and distinguished history. It was first conceived at a cancer research meeting held in 1947 in St Louis, USA, as an attempt to standardize the nomenclature of neoplastic diseases and quickly became among the most influential publications on tumor pathology.

Series 4 includes high-quality images almost exclusively in colour. It provides practising pathologists with thorough, concise and up-to-date information on the nomenclature and classification; epidemiologic, clinical, and pathogenetic features; and, most importantly, guidance in the diagnosis of the tumors and tumor-like lesions of all major organ systems and body sites.

No 24: Tumors of the Bone Marrow
Kathryn Foucar et al
2016 817pp, colour images
9781933477350 Hardback £165.00 / €185.00

MKSAP® 17 MEDICAL KNOWLEDGE SELF-ASSESSMENT PROGRAM

Setting the definitive standard for self-assessment since 1967, MKSAP® continues to honor its legacy by helping internists gain knowledge in the core of internal medicine and its subspecialties. The latest edition, MKSAP® 17, provides unparalleled content in a state-of-the-art format. Learn from evidence-based clinical scenarios and 1200 entirely new, challenging questions.

Learning Objectives

- Close gaps between actual care in your practice and preferred standards of care, based on best evidence.
- Diagnose disease states that are less common and sometimes overlooked and confusing.
- Improve management of comorbid conditions that can complicate patient care.
- Determine when to refer patients for surgery or care by subspecialists.
- Pass the ABIM Certification Examination and the ABIM Maintenance of Certification Examination.

Audience

Specifically intended for physicians who provide personal, non-surgical care to adults, including general internal medical physicians and primary care physicians; subspecialists who need to remain up to date in internal medicine; residents preparing for exams in internal medicine; and physicians needing US certification.

Submitting Completed Tests

To earn CME credits, you must answer all of the questions in a subspecialty section and receive a passing score of at least 50%. Digital users can submit directly from the submissions page of MKSAP® 17 Digital, and print users can use the online answer sheets to instantly submit for CME, MOC, or both, depending on your needs. Access the Online Answer Sheets at mksap.acponline.org.

The MKSAP® Options

MKSAP® 17 PRINT

2015 11 volumes + index, images
9781938245183 Paperback £540.00 / €685.00

Includes 11 highly informative sections, and 1200 new multiple choice questions. This option is ideal for those who like to work from a book but need them to be lightweight enough to be portable.

MKSAP® 17 DIGITAL

2016
9781938245305 Online Account, iPhone/iPad/Android/Desktop Apps & Mobile Web
£565.00 + VAT / €740.00 + VAT

Gives you the full programme plus the flexibility that only an online product can offer. Great for those who like to work on the move. Plus you can take advantage of apps for iPhone, iPad, Android devices, and laptops that will allow you to work entirely offline. Four MKSAP® 17 Updates are included in the price of MKSAP 17® Digital. These will be sent to you in July 2016, January 2017, July 2017 and January 2018.

MKSAP® 17 COMPLETE

2016
9781938245428 £875.00 + VAT / €1,150.00 + VAT

The perfect choice for those who want the full range of options and the best value available. Includes the print sections, MKSAP 17® Digital and Board Basics 4. For intensive review, Board Basics 4 is filled with crucial material you should review right before taking your exam. (Board Basics 4 is free with MKSAP® 17 Complete.)
**BOARD BASICS® 4**  
2015 300pp, images  
9781938245442 Paperback £110.00 / €135.00  
For intensive review, try this book and companion digital version, filled with crucial material you should review right before taking your exam. *Board Basics® 4* is free with MKSAP® 17 Complete or can be purchased if you have bought MKSAP® 17 Print or Digital.

**MKSAP® 17 UPDATES**  
Only available to purchasers of MKSAP® 17 Complete and Digital. At least 50 completely new questions are distributed online every 6 months beginning one year after MKSAP® 17 is released. The updates are free and further update will be available in July 2017 and January 2018.

The individual volumes that comprise MKSAP® 17 are also available for purchase individually:

*IM Essentials Questions* is the next generation of MKSAP for Students and *Internal Medicine Essentials for Students*. This resource brings the self-assessment questions together into a single, integrated suite. The book contains a free access code to the online version of *IM Essentials*, which contains the complete content as well as interactive features and digital flashcards.
NEONATAL RESUSCITATION PROGRAM (NRP®)

TEXTBOOK OF NEONATAL RESUSCITATION®

Seventh Edition
American Academy of Pediatrics & American Heart Association
2016 328pp, 140 images
9781610020244 Paperback £59.95 / €65.00

The Neonatal Resuscitation Program (NRP) is an educational programme jointly sponsored with the American Heart Association (AHA). It is designed to teach an evidence-based approach to the resuscitation of neonates to hospital staff who care for newborns at the time of delivery.

Significantly revised and updated, the new seventh edition reflects the 2015 AAP/AHA Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care of the Neonate. Two new chapters have been added, covering post-resuscitation care and preparing for resuscitation.

With 140 new colour photographs, this powerful resource for interactive, simulation-based teaching and learning is better than ever.

• A powerful resource for interactive, simulation-based teaching and learning.
• Includes two new chapters covering preparation for resuscitation and post-resuscitation care.
• Includes 140 new colour photographs replacing the majority of the line drawings in the previous edition.
• Essential for all neonatal nurses, NICU nurses, mother-baby nurses, midwives, neonatologists, emergency physicians, and respiratory therapists.

Also available in Spanish:

**NEWS FOR NRP® INSTRUCTORS**

The web-based NRP Instructor Course was launched in spring 2016 and is a major component of the new edition. The approximately four-hour web-based course incorporates:

• Video, text, and photographs to help instructors better understand classroom preparation.

• All six Performance Skills Checklists.

• Demonstrations of hands-on skills and practice scenarios.

• Guidelines on how to communicate through simulation and debriefing.

• Guidance on conducting the Integrated Skills Station.

• Advice on counselling a student who must repeat the course.

Beginning with the seventh edition, new instructor candidates will be required to review the course and complete the Instructor Examination and eSim cases prior to teaching two courses under the guidance of an Instructor Mentor. Current NRP Instructors are also encouraged to review the course to prepare for the seventh edition courses.

More information on the steps to becoming a registered NRP Instructor can be found by scanning the QR code below.

MEDICATIONS & MOTHERS’ MILK 2017
17th Edition
Thomas W. Hale & Hilary E. Rowe
2016 1,095pp
9780826128584 Paperback £57.95 / €68.00

The essential reference for professionals working with breastfeeding mothers – now proudly published by Springer Publishing Company.

Medications & Mothers’ Milk is the worldwide-bestselling drug reference on the use of medications in breastfeeding mothers, providing you with the most current, complete, and evidence-based information. Extensively updated throughout, the 17th edition includes hundreds of new drugs, diseases, vaccines, and syndromes. The appendices provide information on radioactive drugs and tests, and over-the-counter drugs.

Written by world-renowned clinical pharmacologist, Dr. Thomas W. Hale, and assisted by Dr. Hilary E. Rowe, this drug reference provides everything that is known about the transfer of various medications into human milk, the use of radiopharmaceuticals, the use of chemotherapeutic agents, and vaccines in breastfeeding mothers.

• Updated throughout with new data on 1,115 drugs, syndromes, vaccines, and herbs.
• Contains new tables to compare the suitability of psychiatric medications and pain medication.
• Includes many new radiocontrast agents and other diagnostic procedures.

Springer Publishing Company

HALE & HARTMANN’S TEXTBOOK OF HUMAN LACTATION
Thomas W. Hale & Peter E. Hartmann
Feb 2017 680pp
9780826160096 Paperback £79.50 / €92.00

Written by many of the world’s leading lactation experts, the Textbook of Human Lactation incorporates evidence-based scientific knowledge to address key topics of importance in breastfeeding such as anatomy and biochemistry, immunobiology, breastfeeding management in infant and mother, maternal and infant nutrition, and medications and breastfeeding. Specific and detailed information is provided on the following topics:

• Complete description of the anatomy and physiology of the lactating breast.
• Detailed explanation of the immunobiology of human milk.
• Description of difficult syndromes and conditions in the infant and breastfeeding mother, and how to overcome these challenges.
• Thorough discussion of the of the emotional and physiological component of breastfeeding, especially as it relates to mother/infant co-sleeping.
• Detailed description of the nutritional competition and components of human milk.
• Explanation of the science of drug transport into human milk, and the use of medications in breastfeeding mothers.
• Discusses breastfeeding in the context of important topics such as infertility, polycystic ovary syndrome (PCOS), vitamin D, birth spacing, and family planning.

**THE PHYSICS & TECHNOLOGY OF RADIATION THERAPY**
Patrick N. McDermott & Colin G. Orton
2010 856pp, images
9781930524446 Paperback
£86.95 / €100.00
9781930524323 Hardback
£125.00 / €140.00

An introductory textbook to the physics and technology used in radiation therapy that is the outgrowth of a course taught to medical residents in radiation oncology and which has been classroom tested over many years.

**ADVANCES IN MEDICAL PHYSICS 2016**
Volume 6
Edited by Devon J. Godfrey et al
2016 323pp
9781930524903 Paperback
£86.95 / €100.00

MPP’s biennial review of the treatments and techniques on the cutting edge of medical imaging and treatment, Advances in Medical Physics is designed to help medical physicists and technically-inclined physicians stay current in medical radiation science and technology.

**MEDICAL DOSIMETRY CERTIFICATION STUDY GUIDE**
Second Edition
K.N. Govinda Rajan
2015 473pp, colour images
9781930524804 Paperback
£86.95 / €100.00

One of the best study guides for the Medical Dosimetry Certification Board (MDCB) exam is Govinda Rajan’s book. Now, the expanded second edition of this popular guide is even better, with twice as many questions as in the first edition.

**PHYSICS OF THE BODY**
Second Edition
John R. Cameron, James G. Skofronick & Roderick M. Grant
1999 394pp, images
978094838914 Paperback
£62.95 / €72.00

This edition of a popular text contains information on the relationship between physics and the workings of the body. It is intended primarily for students.

**ANSWER GUIDE TO PHYSICS OF THE BODY**
Second Edition
Roderick M. Grant
2008 48pp
9781930524415 Paperback
£27.50 / €31.00

**LECTURES ON RADIATION DOSIMETRY PHYSICS**
A Deeper Look into the Foundations of Clinical Protocols
Michael W. Kissick & Sharareh Fakhraei
2016 156pp, images
9781930524927 Paperback
£48.50 / €56.00

Covers essential physics concepts for understanding and calculating problems in the physical energy deposited in matter from ionizing radiation. The focus of application is on medical uses, both imaging and radiation therapy.

EMERGING APPLICATIONS, PERSPECTIVES, AND DISCOVERIES IN CARDIOVASCULAR RESEARCH
Edited by Ashim Malhotra & Shivani Soni
Apr 2017 317pp
9781522520924 Hardback £210.00 / €245.00
Advances in Medical Diagnosis, Treatment, and Care
Presents the latest academic material on the exploration of cardiovascular diseases, and provides an interdisciplinary examination of novel developments and applications for cardiovascular sciences. This book highlights a range of diverse topics, such as pharmacology, pathophysiology, and alternative medicine.

Morgan & Claypool Publishers

CARDIOVASCULAR RESPONSES TO EXERCISE
Second Edition
Lusha Xiang & Robert L. Hester
Jan 2017 134pp
9781615047260 Paperback £53.50 / €61.00
Exercise can be one of the most stressful physiological responses that the body undertakes. With exercise, there are increases in metabolic rate, heart rate, blood flow (hyperemia), respiration, and heat production. This book provides an overview of the cardiovascular responses to exercise under physiological conditions as well as some pathological circumstances.

9781607951988 Hardback £140.00 / €180.00
Provides a comprehensive analysis of the current management of vascular disease as it relates to treatment of extracranial cerebrovascular and supra-aortic trunk disease, new approaches to lower extremity arterial and venous problems, and recent cutting-edge developments in open and endovascular approaches to treat aortic and visceral arterial disease.
Rutgers University Press

**ESSENTIAL FACTS IN CARDIOVASCULAR MEDICINE**

*Board Review and Clinical Pearls*
Yerem Yeghiayanars

Nov 2017 204pp, 7 line drawings, 29 tables
9780813579689 Paperback £41.50 / €54.00

Unlike standard exhaustive text and reference titles, Essential Facts in Cardiovascular Medicine provides the most critical facts and clinical pearls of cardiovascular medicine, in a high-yield, concise, bulleted format that can fit in your pocket. It is the perfect guide to enhance your cardiovascular knowledge, prepare for examinations, and improve clinical practice.

**IATROGENICITY**

*Causes and Consequences of Iatrogenesis in Cardiovascular Medicine*
Edited by John Kostis & Ihor Gussak

Oct 2017 304pp, 32 line drawings
9780813586410 Hardback £112.50 / €130.00
9780813590400 Paperback £89.95 / €105.00

Iatrogenesis is the occurrence of untoward effects resulting from actions of health care providers. Edited by two renowned cardiology experts, Iatrogenicity addresses both the iatrogenicity that arises with cardiovascular interventions, as well as non-cardiovascular interventions that result in adverse consequences on the cardiovascular system.

Now in its second edition, Gynecologic Oncology Handbook has been thoroughly updated to include the latest advances in surgical techniques, chemotherapy protocols, AJCC 8th Edition staging criteria, and much more. This current edition contains illustrations that reinforce key concepts, algorithms for diagnostic techniques, and tables to guide you in optimal disease management.

HANDBOOK OF BREAST CANCER AND RELATED BREAST DISEASE

Edited by Katherine H.R. Tkaczuk, Susan B. Kesmodel & Steven J. Feigenberg  
Feb 2017 350pp  
9781620700990 Paperback £82.50 / €94.00

Provides a practical guide to the management of patients with breast malignancies and related non-neoplastic lesions. Written and edited by leading experts, this handbook focuses on the application of conventional and novel treatment strategies to the care of patients with nonmalignant breast disease and all stages of breast cancer.

HANDBOOK OF GERIATRIC ONCOLOGY

Edited by Beatrix Korc-Grodzicki & William P. Tew  
May 2017 394pp, 20 images  
9781620701041 Paperback £72.50 / €83.00

A practical resource for oncologists and related clinicians who want to provide comprehensive, patient-centred care to the elderly cancer patient. Divided into nine succinct sections, this book is the definitive resource for oncologists and related clinicians to meet the demands of clinical management along the continuum of geriatric cancer care.
HANDBOOK OF HEMATOLOGIC MALIGNANCIES
David A. Sallman et al
Mar 2017 306pp, 100 images
9781620700945 Paperback £90.50 / €105.00
Provides a unique, practical, and concise guide focused on the must-know points of diagnosis, prognosis, therapeutic management, and cutting edge clinical trial opportunities for each hematologic malignancy. This comprehensive subspecialty handbook is designed and organised for the busy hematologist, hematologic oncologist, hematopathologist, and trainee.

HANDBOOK OF LUNG CANCER AND OTHER THORACIC MALIGNANCIES
Edited by Gregory P. Kalemkerian et al
Mar 2017 370pp, 30 images
9781620700969 Paperback £82.50 / €94.00
Provides a practical guide to management of lung cancer and other cancers of the thoracic cavity. Edited by a multidisciplinary team of cancer specialists from leading institutions, the book is an essential day-to-day reference for evidence-based care in thoracic oncology.

HANDBOOK OF PROSTATE CANCER AND OTHER GENITOURINARY MALIGNANCIES
Edited by Teresa G. Hayes, Martha Pritchett Mims & Jennifer Marie Taylor
Jun 2017 350pp, 15 images
9781620701096 Paperback £95.00 / €105.00
Provides a patient-centred, practical approach to diagnosis, treatment, and clinical management of cancers found in the genitourinary system. Remaining current and up-to-date can be extremely challenging for practicing clinicians. This comprehensive, multidisciplinary handbook is designed with the busy oncologist, urologist, general practitioner, and trainee in mind.

THE MELANOMA HANDBOOK
Edited by Stephan P. Ariyan & Harriet Kluger
Apr 2017 225pp, 30 images
9781620701188 Paperback £77.50 / €88.00
A concise and comprehensive resource for anyone who treats patients with local, advanced, or metastatic melanoma in all its various forms. Chapters cover the pathology, treatment, and management of all presentations of melanoma. The content emphasizes overall treatment guidelines and more nuanced applications for patient groups who have different presentations, metastases, or other complications.

Morgan & Claypool Publishers

MITIGATION OF CANCER SIDE EFFECTS USING LIGHT
Raj Nair & Rene-Jean Bensadoun
2016 47pp
9781681740119 Paperback £33.95 / €39.00
In this book the authors attempt to portray the current status of the supportive care interventions that are possible with photobiomodulation using low level laser therapy (LLLT) in patients undergoing cancer treatment for solid tumours, hematological malignancies, and head and neck cancers.
IOP Concise Physics

Oncology Nursing Society

INTEGRATING PHYSICAL ACTIVITY INTO CANCER CARE
An Evidence-Based Approach
Edited by L.M. Bernardo & B.J. Becker
Apr 2017 256pp
9781935864912 Paperback £66.95 / €77.00
Provides essential resources to encourage and support patients to engage in appropriate levels of exercise and physical activity throughout the cancer trajectory. Chapters highlight the benefits of physical activity in different types of cancer, strategies to assess patient motivation and readiness, ways to evaluate exercise tolerance and adherence, and resources and support groups.
SARCOMA ONCOLOGY
A Multidisciplinary Approach
Raphael Pollock et al
Oct 2017 700pp
9781607950172 Hardback £145.00 / €190.00
Addresses the entire spectrum of the subject from epidemiology to laboratory research in the biology of sarcomas. Coverage includes the epidemiology and pathology of sarcomas; diagnostic imaging and biopsy techniques; staging and prognosis; surgery of sarcomas in extremity soft tissue, abdominal wall and trunk, and skeletal bone; surgery for metastases; reconstructive surgery; and systemic chemotherapy.

RUTGERS UNIVERSITY PRESS

CLINICAL TRIALS IN OVARIAN CANCER
Christine S. Walsh
2016 328pp
9780813586472 Hardback £80.95 / €98.00
Collecting and synthesizing research findings from a wide array of medical journal articles and book chapters, Clinical Trials in Ovarian Cancer systematically outlines each of the seminal Phase III trials that have shaped the treatment of ovarian cancers, detailing the rationale for the trial, the patient population studied, treatment delivery methods, efficacy, toxicity, and trial conclusions.

OPTICAL COHERENCE TOMOGRAPHY ANGIOGRAPHY OF THE EYE
David Huang et al
Aug 2017 400pp, images
9781630912826 Hardback £205.00 / €235.00 / US$189.95

Includes detailed information on clinical applications and fundamental principles needed to understand and use optical coherence tomography angiography. This includes information on high-speed OCT systems, algorithms to extract flow contrast, the appearance of the normal eye, the findings in myriad diseases, and tips on how to deal with artifacts and pitfalls.

PRACTICAL ASTIGMATISM
Planning and Analysis
Noel Alpins
Sep 2017 250pp, images
9781617119958 Hardback £125.00 / €145.00

The surgical correction of astigmatism is the last frontier to optimizing visual outcomes for patients. Practical Astigmatism: Planning and Analysis is a comprehensive guide to correcting astigmatism from pre-operative planning to post-operative analysis. This provides readers with unique insight to what actually happened surgically.

REFRACTIVE CATARACT SURGERY
John A. Hovanesian
Apr 2017 250pp, images
9781630911973 Paperback £140.00 / €160.00

Updated and expanded, this second edition is a practical guide for cataract surgeons and general ophthalmologists who wish to take their practices to a new level by offering refractive solutions to their cataract patients.
Now in its second edition, this straightforward, concise, and easy-to-read reference manual is equivalent to having the best instructor offering guidance on what to do next and how to avoid potential complications. It comprehensively details every step of phacoemulsification cataract extraction surgery, from preoperative evaluation to intraoperative instruction to postoperative care.

More than 30 years ago, Neuro-Ophthalmology Review Manual presented a unique and user-friendly approach to address clinical neuro-ophthalmology principles used in everyday practice. The seventh edition continues that tradition, providing a timely update, while also maintaining the same concise format. It includes effective exercises, case studies, as well as the addition of a chapter on neuroimaging.

This completely revised and updated third edition reflects the quickly advancing technology of spectral domain optical coherence tomography (OCT). Incorporated within over 600 pages are a multitude of updated features unique to this edition, including over 1,200 colour images, state-of-the-art technology, and case presentations. These elements cohesively work together to successfully demonstrate the retina in normal and diseased states using spectral domain OCT.

Includes over 300 figures and illustrations detailing the latest machine technologies and surgical techniques. In addition, it profiles how recent advancements in machine technology can enhance surgical procedures and optimize results.

NUTRITION IN PEDIATRICS
Basic Science, Clinical Applications, Fifth Edition
Christopher Duggan et al
2016 1,265pp, 225 figures, 200 tables
9781607951803 Hardback £210.00 / €270.00
Provides a comprehensive and accessible approach to paediatric nutrition. This fifth edition continues the expansion of the section on paediatric obesity; includes new chapters on celiac disease, food allergies, and iron; and includes expanded and updated chapters on international nutrition, including focused chapters on nutrition in low- and middle-income countries.

PEDIATRIC GASTROINTESTINAL ENDOSCOPY
Second Edition
Edited by Harland S. Winter et al
Sep 2017 350pp, 750 images, video atlas, 33 tables
9781607951070 Hardback £165.00 / €215.00
Focuses on practical diagnostic and therapeutic endoscopy in children. The combining of paediatric endoscopic images with an updated practical guide to the performance of paediatric gastrointestinal endoscopy makes this volume a unique reference source. The extensive use of line diagrams, and more colour illustrations of endoscopic appearances, plus complementary histopathology creates a definitive reference resource for paediatric gastroenterologists and paediatric surgeons.

WALKER’S PEDIATRIC GASTROINTESTINAL DISEASE
Physiology, Diagnosis, Management, Sixth Edition
Ronald E. Kleinman et al
Sep 2017 1,400pp, 750 figures, 400 tables
9781607951810 Hardback £230.00 / €295.00
The revision of this definitive, two-volume reference work is dedicated to the maintenance of a comprehensive approach to the practice of paediatric gastroenterology. The text of the previous edition was extensively reviewed and, as a result, the size and content of various sections have been modified and new chapters have been added. Each author, selected because of particular expertise in the field, has provided an authoritative and comprehensive account of his or her topic.

Bruce M. Wenig et al
Jul 2017 514pp, 755 images
9781933477374 £168.00 / €188.00

Offers a broad overview of the spectrum of diseases involving the sinonasal tract, oral cavity, pharynx, larynx, neck, salivary glands, and ear and temporal bone. It focuses primarily on the more common non-neoplastic head and neck diseases that the surgical pathologist will confront in their daily practice to provide readers with a useful and practical text supplemented with high-quality illustrations with which to diagnose non-neoplastic head and neck diseases.

**ASCP Press**

**DIGITAL PATHOLOGY**
Edited by Liron Pantanowitz & Anil V. Parwani
Jul 2017 304pp, 145 colour images
9780891896104 Hardback £195.00 / €220.00

This is a definitive, complete reference of digital pathology – an extraordinarily comprehensive and complete book for individuals with anything from minimal knowledge to deep, accomplished experience in digital pathology. It examines the history and technological evolution of digital pathology, from the birth of scanning technology and telepathology to threedimensional imaging on large multi-touch displays and computer aided diagnosis.

**CLINICAL CHEMISTRY**
Practical Laboratory Diagnosis of Disease
David N. Bailey & Robert L. Fitzgerald
Jul 2017 282pp, colour images
9780891896548 Paperback £125.00 / €145.00

An instructional tool for teaching clinical chemistry to health sciences students and pathology residents or for preparing for board examinations. It focuses on the laboratory diagnosis of the most common diseases by organ system and relates diagnostic testing to the pathophysiology of the diseases in development of the differential diagnosis. The material in this book should also help students to be well-prepared for their respective licensing examinations and clinical rotations and assist residents preparing for board examinations.
BONE MARROW PATHOLOGY
Third Edition
Kathy Foucar, Kaari Reichard & David Czuchlewski
2010 890pp, images
9780891895688 Hardback £125.00 / €145.00
A virtual roadmap to the latest best practices, this edition, in two volumes, integrates the full scope of the 2008 WHO criteria with answers to your day-to-day diagnostic questions. New to the third edition are diagnostic clues and caveats; newly-recognised benign and neoplastic disorders; new sections on the pathophysiologic/pathogenetic mechanism of disease for each entity; morphologic approaches and standard techniques – thoroughly revised and freshly illustrated; and insightful sidebars about molecular genetics.

Demos Medical Publishing

ATLAS OF PULMONARY CYTOPATHOLOGY
With Histopathologic Correlations
Syed Z. Ali et al
Oct 2017 224pp, 500 images
9781936287161 Hardback £165.00 / €190.00
Offers concrete diagnostic guidance for anatomic pathologists to accurately identify pulmonary disease using exfoliative and aspiration techniques. It presents the cytomorphology of lung specimens, and also explores examples of potentially difficult interpretation.

ATLAS OF SALIVARY GLAND CYTOPATHOLOGY
With Histopathologic Correlations
Christopher J. VandenBussche et al
Sep 2017 184pp, 400 images
9781620701119 Hardback £165.00 / €190.00
A comprehensive diagnostic guide for anatomic pathologists that accurately identifies salivary gland disease using fine needle aspiration. It illustrates the cytomorphology and histology of specimens, and also presents and contrasts common problem areas that can lead to misinterpretation.

ATLAS OF TOUCH PREPARATION CYTOPATHOLOGY
Liron Pantanowitz, Juan Xing & Sara E. Monaco
Sep 2017 224pp, 600 images
9781620700686 Hardback £175.00 / €205.00
Written by established pathologists, this atlas presents a comprehensive overview and visual reference guide to the diagnostic applications of touch preparations, corresponding to all major body systems.

STATISTICS FOR PATHOLOGISTS
Dan A. Milner et al
Feb 2017 250pp
9781620700921 Paperback £77.50 / €90.00
A clear review of the use of statistics in pathology studies, giving overviews of every relevant statistical test with application in pathology-related research. There are self-assessment review questions and answers and downloadable datasets for readers to perform their own statistical analysis tied to the book.

PMPH-USA

CYTOLOGY, HISTOLOGY, CYSTOSCOPY, AND RADIOLOGY OF THE URINARY SYSTEM
Atlas and Practical Guide
Edited by Xiaoqi Lin, Longwen Chen & Ritu Nayar
Oct 2017 350pp, 245 figures, 5 tables
9781607951858 Hardback £115.00 / €145.00
Presents visual and descriptive guidelines for interpreting samples. The book begins with an overview of the urinary system and moves on to the techniques and tools for diagnosing illness, including endoscopy for urologic lesions, urine cytology, bladder biopsies, radiological images of renal lesions, renal mass biopsy, and ancillary tests for urothelial carcinoma.
A comprehensive guide to every area of compounding, administering, storing, and disposing of hazardous drugs, this Answer Book is written in plain language in a question-and-answer format, and will help you to learn what you need to know quickly and easily.

In the evolving practice of pharmacokinetics (PK), it is important to keep on top of the latest advances. John E. Murphy has updated and expanded his widely-used textbook for the second edition, covering both the fundamentals of pharmacogenomics and the latest genomic technologies.

As the growing field of pharmacogenomics continues to impact daily practice and offer promising new drug therapies, understanding this complex science is critical for all pharmacists. To meet this need, ASHP’s Concepts in Pharmacogenomics has been completely updated for the second edition, covering both the fundamentals of pharmacogenomics and the latest genomic technologies.

Designed to serve as a user’s guide for new and experienced preceptors of both residents and experiential students, The Effective Pharmacy Preceptor offers insight to common precepting scenarios and is organised by the timeline and tasks associated with a resident or student’s experience.

With extensive updated information on everything from treatment of hypertension to hepatitis C, AHFS® Drug Information® 2017 is a necessary addition to your pharmacy’s resources. With content supported by more than 89,000 total references and reviewed by over 500 professionals, it helps you protect your patients and your practice.

The most comprehensive set of quality guidelines available to the pharmacy profession. These guidance documents have stimulated improvements in pharmacy practice and operations, influenced accreditation standards, laws, and regulations (both in the United States and in other countries), and contributed to an awareness among consumers and policymakers of the vital patient care role of pharmacists.

Now in its sixth edition, this popular teaching text has been expanded and updated to cover new drugs, research, and therapeutic approaches. It is a comprehensive, in-depth guide to all aspects of lab work that apply to clinical practice. Written by 40 established clinicians and pharmacy faculty, it is designed to make all information clear and quickly accessible.
EXTENDED STABILITY FOR PARENTERAL DRUGS
Sixth Edition
Caryn Dellamorte Bing & Anna Nowobilski-Vasilio
Jun 2017 430pp
9781585285273 Paperback £170.00 / €195.00
ASHP’s sixth edition of Extended Stability for Parenteral Drugs covers all aspects of determining stability, including the changing elastomeric landscape and the ongoing variability in stability data. With its expanded coverage, many updates, and new information, this new edition provides even more support, making it a “must have” for any practice.

HANDBOOK ON INJECTABLE DRUGS, 19TH EDITION
ASHP’s Guide to IV Compatibility and Stability
ASHP - American Society of Health-System Pharmacists
2016 1,400pp
9781585285594 Paperback £350.00 / €395.00
Backed by quality, peer-reviewed published literature, the Handbook on Injectable Drugs™ has been a go-to, trusted resource for nearly four decades. Published by ASHP, it’s the global gold standard for IV compatibility and stability information. ASHP’s Handbook on Injectable Drugs™ is now newly updated with the latest information. The 19th edition features 27 new monographs—more than twice the last edition—and more than 235 new references.

BESTSELLER
PEDIATRIC INJECTABLE DRUGS (THE TEDDY BEAR BOOK)
Tenth Edition
Stephanie J. Phelps et al
2013 280pp
9781585283798 Paperback £170.00 / €195.00
For more than two decades, Pediatric Injectable Drugs (The Teddy Bear Book), has served an important and continuing need for reliable evidence-based information specific to paediatric injectable drugs. The tenth edition of this invaluable reference has grown to cover 238 drugs commonly used in the treatment of infants and children, including 20 new to this edition.

PHARMACEUTICAL SCIENCES
Breakthroughs in Research and Practice
Edited by Information Resources Management Association
Feb 2017 450pp
9781522517627 Hardback £330.00 / €380.00
The delivery of optimal pharmaceutical services to patients is a pivotal concern in the healthcare field. By examining current trends and techniques in the industry, processes can be maintained and improved. Pharmaceutical Sciences: Breakthroughs in Research and Practice provides comprehensive coverage of the latest innovations and advancements for pharmaceutical applications.

NEUROPHARMACOTHERAPY IN CRITICAL ILLNESS
Edited by Gretchen Brophy
May 2017 256pp, 15 line drawings
9780813590356 Paperback £89.95 / €105.00
For further details, see page 18.

MEDICATIONS & MOTHERS’ MILK 2017
Thomas W. Hale & Hilary E. Rowe
2016 1,095pp
9780826128584 Paperback £57.95 / €68.00
For further details, see page 8.
SURGERY

PMPH-USA

CURRENT VASCULAR SURGERY
Northwestern Vascular Symposium
Mark Eskandari, William H. Pearce & James S.T. Yao
Mar 2017 602pp
9781607951988 Hardback £140.00 / €180.00
For further details, see page 10.

FACIAL SCARS
Surgical Revision and Treatment
J. Regan Thomas & David Hom
Oct 2017 400pp
9781607951865 Hardback £125.00 / €160.00
Offers a comprehensive treatment of scar revision, starting with the anatomy of the scar and its formation in wound healing. Fetal and paediatric skin scarring as well as scarring in different types of skin and in medical conditions that produce a higher risk of scarring are covered. The text considers the range of surgical and nonsurgical treatments for scars currently available.

EPIDEMIC
Ebola and the Global Scramble to Prevent the Next Killer Outbreak
Reid Wilson
Nov 2017 300pp
9780815731351 Hardback £21.50 / €28.00
In an increasingly interconnected world in which everyone is one or two flights away from New York or London or Beijing, even a localized epidemic can become a pandemic. From the poorest villages of rural West Africa to the Oval Office itself, this book tells the story of a deadly virus that spun wildly out of control - and reveals the truth about how close the world came to a catastrophic global pandemic.

HEALING DIGESTIVE DISORDERS
Natural Treatments for Gastrointestinal Conditions, Fourth Edition
Andrew Gaeddert
Aug 2017 360pp
9781607952855 Paperback £20.95 / €27.00
Drawing on his clinical experience, Andrew Gaeddert, who once suffered from Crohn’s disease and irritable bowel syndrome (IBS), covers such topics as herbs and vitamins, Chinese medicine, meditation, and environmental triggers that affect digestion, helping readers make sense of the multitude of available natural healing techniques.

TEACHING CLINICAL RESEARCH METHODOLOGY BY EXAMPLE
Jack Hirsh
Aug 2017 276pp
9781607952831 Paperback £29.95 / €39.00
Tells the story of the research process in action and provides a glimpse into the minds of the researchers responsible for some of the major advances (and setbacks) in modern medicine. The author also explains the principles of evidence-based medicine by reviewing the research methods required to prove or disprove a theory.
